Learn to Skate Program Description |

This program is for the floppy ankles, banana peel steppin' kids out there! Come to Churchill Rink and learn to skate with ORYA. Our program encourages young skaters to develop balance, skating muscles, falling the RIGHT way while having fun on the ice without the use of walkers or balance aids! The learn to skate program utilizes Learn to Skate USA guidelines and teams up with local area coaches to develop young skaters balance, skating muscles while teaching them the basics of skating. Learning to fall, to get back to their feet, how to glide & stop will be taught as each player reaches certain milestones.

On the ice participants are broken into smaller groups based on current level so our coaches can focus on moving them up. Many kids participate in this class over multiple winters until their skills & confidence on skates allows them to move on to hockey or figure skating programs.

Schedule |

In the event of a cancellation ORYA will email each participant utilizing the primary email address supplied when registered. ORYA will also announce any schedule changes via it's Facebook page.

Equipment |

All participants are REQUIRED to wear a helmet and no participants, parents or guardians are allowed on the ice without skates. Participants are welcome to wear any single-blade hockey or figure skates (no double runners) since they'll be learning the basics which translates to all skating. Participants should be dressed appropriately for the cold weather, as Churchill Rink is a covered outdoor rink exposed to the elements.

Player Tuition |

The tuition for this program is based on the expected number of participants and accounts for insurance (medical & liability), small equipment budget, ice time, ORYA Admin & Capital Fund allocation, online payment processing fees and coach stipends.
